

# serial**track**.io

This “new\_container” barcode can be scanned from the SerialTrack dashboard to start a new shipment. It is often easier to scan this barcode than to click a button on the screen.

The barcode is presented here in various sizes. Feel free to print, copy, or otherwise use this document to generate what you need. As always, you can contact [support@serialtrack.io](mailto:support@serialtrack.io) if you have any questions
